

Data Analyst, Partnerships

Description

This is Adyen

Adyen provides payments, data, and financial products in a single solution for customers like Meta, Uber, H&M, and Microsoft – making us the financial technology platform of choice. At Adyen, everything we do is engineered for ambition.

For our teams, we create an environment with opportunities for our people to succeed, backed by the culture and support to ensure they are enabled to truly own their careers. We are motivated individuals who tackle unique technical challenges at scale and solve them as a team. Together, we deliver innovative and ethical solutions that help businesses achieve their ambitions faster.

Partnerships Data

Adyen is looking for a passionate and skilled Data Analyst to join our team in Amsterdam and contribute to our mission of turning data into value for our strategic partnerships. As a Partnerships Data Analyst, you will play a vital, global role in collaborating with our strategic partners and partnership managers to provide actionable insights, enhancing our overall partnerships offering. Your expertise in data analysis and problem-solving will be instrumental in optimizing and growing our partnerships landscape and driving impactful results across Europe, North America, South America, and beyond.

What you'll do

- **Collaborative Solution Development:** You'll work closely with global Partnership managers, Product teams, and other Data Analysts and Engineers in ideating, building and evaluating data solutions to meet business needs. Engage stakeholders to gather requirements, provide data insights, address inquiries and drive strategy. Communicate findings, recommendations, and progress clearly and concisely to diverse audiences.
- **Data Analysis and Insights:** Analyze transactional and partnerships data to unlock actionable insights and improvement opportunities. Provide data-driven recommendations to optimize customer performance, increase efficiency, and enhance product offerings.
- **Problem Solving and Impact-Oriented:** Proactively identify opportunities through comprehensive data analysis. Develop data models and perform statistical analysis to support strategic business decisions. Initiate and drive new projects to help Adyen achieve significant growth.
- **Strategic Leadership:** Use data insights to proactively shape and drive strategy across our global partnership base. Influence and support the development of partnership strategies with data-driven insights.
- **Tool Development:** Design and build impactful tooling that structurally adds value to our partnerships teams and develop scalable solutions that enhance data accessibility and usability for stakeholders.

Who you are

- **Experienced Data Analyst:** Around 5 years of experience working as a

Data Analyst or in a similar role.

- **Technical and Strategic Hybrid:** A blend of technical expertise and strategic thinking.
- **Technical expert:** Proficient Python and SQL, experience with BI tools, Looker being a big plus. Experience with big data tooling, i.e. [PySpark](#), Hadoop and Airflow.
- **Great Communicator:** Able to effectively communicate complex data-related concepts and outcomes to a diverse range of (non-technical) stakeholders.
- **Self-starter:** Proactive in identifying opportunities, devising solutions, and managing projects independently.
- **Strategic Thinker:** Able to thrive in a fast-paced environment, prioritize tasks, and maximize impact through strategic influence.
- **Innovative Mindset:** You have an experimental and curious mindset with a 'launch fast and iterate' mentality.
- **Global Mindset:** Able to interface seamlessly with a global, multicultural team (excellent collaboration skills, culturally aware, both internally and with customers) and enthusiastic and open to meet with the teams globally.

Good to know

- This role is based out of our Amsterdam office, but has an international (EMEA, NA & LATAM) scope.
- We have a hybrid work arrangement, meaning at least three days per week from the office.
- This is a full-time position.

Our Diversity, Equity and Inclusion commitments

Our unobvious approach is a product of our diverse perspectives. This diversity of backgrounds, cultures, and perspectives is essential in helping us maintain our momentum. Our business and technical challenges are unique, we need as many different voices as possible to join us in solving them – voices like yours. So no matter where you're from, who you love, or what you believe in, we welcome you to be your true self at Adyen.

Studies show that women and members of underrepresented communities apply for jobs only if they meet 100% of the qualifications. Does it sound like you? If so, Adyen encourages you to reconsider and apply. We look forward to your application.

What's next?

Ensuring a smooth and enjoyable candidate experience is critical for us. We aim to get back to you regarding your application within 5 business days. Our interview process tends to take about 4 weeks to complete, but may fluctuate depending on the role. [Learn more about our hiring process here](#). Don't be afraid to let us know if you need more flexibility.

How the process will look like

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.
