

AI/ML Engineer

Description

Ryanair Labs is the technology brand of Ryanair. Labs is a state-of-the-art digital & IT innovation hub creating Europe's Leading Travel Experience for our customers. The Ryanair platform has over 1 billion visits per year. By joining Ryanair, you will develop cutting edge tech solutions inside Ryanair, transforming aviation for Pilots, Cabin Crew & Ground Ops, as well as driving the tech experience for our customers on Europe's largest travel website!

Ryanair Labs has more than 550 employees across our offices in Dublin, Madrid, Poland, and Portugal. Our plan is to continue to grow our IT Labs Team so we are always on the lookout for the best talent. Apply today for more information.

We are seeking a talented and innovative AI/ML Engineer to push the boundaries of what is possible with AI. The ideal candidate will have a robust foundation in machine learning, coupled with a proven track record in developing and deploying AI systems. You will play a pivotal role in pioneering projects that leverage Generative AI to create new and transformative experiences. If you are driven by curiosity, excel in a fast-paced environment, and are eager to make a significant impact within a cutting-edge AI department, we want to hear from you.
