

Internship: Business Intelligence and Finance Excellence

Description

Company Description

Avery Dennison Corporation (NYSE: AVY) is a global materials science and digital identification solutions company that provides a wide range of branding and information solutions that optimize labor and supply chain efficiency, reduce waste, advance sustainability, circularity and transparency, and better connect brands and consumers. Our products and solutions include labeling and functional materials, radio frequency identification (RFID) inlays and tags, software applications that connect the physical and digital, and a variety of products and solutions that enhance branded packaging and carry or display information that improves the customer experience. Serving an array of industries worldwide — including home and personal care, apparel, general retail, e-commerce, logistics, food and grocery, pharmaceuticals and automotive — we employ approximately 35,000 employees in more than 50 countries. Our reported sales in 2023 were \$8.4 billion. Learn more at www.averydennison.com.

Avery Dennison is an equal opportunity employer.

Please let us know if we can support you with reasonable accommodations throughout the application process by contacting our team via Requestaccomodation@eu.averydennison.com.

Job Description

Do you want to put your financial and analytical skills into practice in a diverse and global manufacturing company?

We are currently looking for an Intern to support our Business Intelligence and Finance Excellence team in our European Headquarters in Oegstgeest! Being part of this international team, you will provide reporting and analytical support to our European Sales and Marketing organization and internal Finance.

Your main responsibilities will be:

- Support the Business Intelligence team by generating all regular reporting required by our internal and external stakeholders
- Partner with customers/stakeholders to understand their needs and translate them into new dashboards/reports that generate valuable insights efficiently.
- Contribute to the automation and standardization of internal reports or business processes by identifying improvement opportunities and generating SOPs
- Establish and build upon robust and cohesive working relationships between Finance and all our stakeholders in IT and the Commercial organization
- Provide ad-hoc financial support and project analysis contributing to team effort by accomplishing related results as needed
