

Master Data Management (MDM) Analyst

Description

[WPP](#) is the creative transformation company. We use the power of creativity to build better futures for our people, planet, clients, and communities.

Working at WPP means being part of a global network of more than 115,000 accomplished people in 110 countries. WPP has headquarters in New York, London and Singapore and a corporate presence in major markets worldwide.

We create transformative ideas and outcomes for our clients through an integrated offer of communications, experience, commerce, and technology.

WPP and our award-winning agencies work with most of the world's biggest companies and organisations – from Ford, Unilever and P&G to Google, HSBC, and the UN. Our clients include 61 of the FTSE 100, 307 of the Fortune Global 500, all 30 of the Dow Jones 30 and 62 of the NASDAQ 100. WPP are the leader in the Bloomberg Gender Equality Index and 20th in the FTSE 100 rankings for Women on Boards.

Why we're hiring:

The Maconomy Core Programme is a global ERP programme has been running for over 5 years and has developed a Core template solution which has been implemented in 17 countries covering over 16,000 users. There is a need to recruit a team for one of the next roll out phases, EMEA.

We are seeking a detail-oriented and experienced Master Data Management (MDM) Analyst to join our dynamic team. The ideal candidate will be responsible for managing and maintaining our databases related to clients, vendors, and products. This role requires a meticulous individual with strong analytical skills and a deep understanding of due diligence and SOX controls.

What you'll be doing:

Database Management: Maintain and manage master data across clients, vendors, and products databases, ensuring data integrity and accuracy.

Data Quality Assurance: Implement and monitor data quality controls, addressing any discrepancies and ensuring compliance with established standards.

Due Diligence: Conduct thorough due diligence on data sources, verifying the accuracy and reliability of information.

SOX Compliance: Ensure all data management processes comply with Sarbanes-Oxley (SOX) regulations, implementing and maintaining necessary controls.

Data Governance: Develop and enforce data governance policies and procedures,

promoting best practices for data management.

Reporting and Analysis: Generate and analyze reports on data quality and compliance, providing insights and recommendations for improvements.

Collaboration: Work closely with cross-functional teams, including IT, finance, and operations, to support data-related initiatives and projects.

What you'll need:

Experience: Experience in master data management, with a focus on clients, vendors, and products.

Due Diligence: Proven experience in conducting due diligence and verifying data accuracy.

SOX Compliance: Strong knowledge of Sarbanes-Oxley (SOX) controls and regulations.

Technical Skills: Proficiency in database management systems, data analysis tools, and Microsoft Office Suite.

Analytical Skills: Excellent analytical and problem-solving skills, with attention to detail.

Communication: Strong written and verbal communication skills, with the ability to present data findings clearly and concisely.

Collaboration: Ability to work effectively in a team environment and collaborate with various stakeholders.

If you are a dedicated MDM professional with a passion for data integrity and compliance, we encourage you to apply for this exciting opportunity. Join our team and help us achieve excellence in master data management.

Who you are:

You're open: We are inclusive and collaborative; we encourage the free exchange of ideas; we respect and celebrate diverse views. We are accepting: of new ideas, new partnerships, new ways of working.

You're optimistic: We believe in the power of creativity, technology and talent to create brighter futures for our people, our clients and our communities. We approach all that we do with conviction: to try the new and to seek the unexpected.

You're extraordinary: we are stronger together: through collaboration we achieve the amazing. We are creative leaders and pioneers of our industry; we provide extraordinary every day.

What we'll give you:

Passionate, inspired people – We promote a culture of people that do extraordinary work.

Scale and opportunity – We offer the opportunity to create, influence and complete projects at a scale that is unparalleled in the industry.

Challenging and stimulating work – Unique work and the opportunity to join a group of creative problem solvers. Are you up for the challenge?

WPP is an equal opportunity employer and considers applicants for all positions without regard to race, color, religion or belief, sex, age, national origin, citizenship status, marital status, military/veteran status, genetic information, sexual orientation, gender identity, physical or mental disability. We believe in creating a dynamic work environment that values diversity and inclusion and strives to recruit a diverse slate of candidates to help us achieve that goal.

Please read our **Privacy Notice** (<https://www.wpp.com/people/wpp-privacy-policy-for-recruitment>) for more information on how we process the information you provide.

How the process will look like

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.
