Lead Data Engineer

Description

Motorway is the UK's fastest-growing used car marketplace – our award-winning, online-only platform connects private car sellers with thousands of verified dealers nationwide, ensuring everyone gets the best deal. Founded in 2017, our technology-led approach has redefined the experience of selling a car, generating thousands of monthly car sales and helping us to grow to a team of more than 400 people across our London and Brighton offices.

About the role

Our Data Engineering team is looking for a Lead Data Engineer to join them!

As our first Data Engineer, you'll play a pivotal role in bridging engineering best practices with our data domain.

Our team is committed to transforming data into actionable insights, aiding decision-making processes and enhancing our products. Your expertise will drive advancements in our data engineering practices, leading the development of new data products with a focus on data backends, infrastructure, and DataOps.

If you thrive on enhancing infrastructure scalability, and designing sophisticated data architectures, then this role is perfect for you!
