

Intern Data Scientist

Description

We are just launching a 3 months paid **IT Internship Program** which will give you the opportunity to work within Ryanair Teams. The work that you do, will be seen by the millions of customers across Europe! By showing entrepreneurial spirit, you will be rewarded with an opportunity **to develop a career** (possibility of getting a civil contract after) for one of the most well-known brands across Europe!

We are looking for IT talents who would like to spend the summer with the teams of great team that will help them to grow. We want inspirational IT students who have a story to tell and who have strong outside interests. Cultural fit at Ryanair is just as important as academics.

What the Team does:

We are looking for a Data Scientist to work in a multi-disciplined team, working alongside Developers, Designers and Product Owners, who will own their work from the initial idea to the final implementation.

Requirements

- Student of Computer Science or similar technical field is essential (Computer Science, Mathematics, Engineering, Artificial Intelligence, etc.)
- Proven problem solver – the ability to come up with unique solutions to unique problems.
- **Good command of English (min. B2).**

Application process:

- **Application form** – send us your application (in English) plus short introduction of yourself, and why you want to join the IT Internship Program. If you were a successful in this stage, we will call you to speak about your expectations and future.
- **Phone call with Recruiter** – short conversation when we will share with you all the details about work and check your English level.
- **Interview** – the technical interview with the Team and then Team Manager.

Good luck with your application and lets your career take off with Ryanair Labs Wrocław!

How the process will look like

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.
