Intern Data Science of Financial Services (f/m/x)

Description

SOME IT WORKS. SOME CHANGES WHAT'S POSSIBLE.

SHARE YOUR PASSION.

More than 90% of automotive innovations are based on electronics and software. That's why creative freedom and lateral thinking are so important in the pursuit of truly novel solutions. And that's why our experts will treat you as part of the team from day one, encourage you to bring your own ideas to the table – and give you the opportunity to really show what you can do.

We, the BMW Group, offer you an interesting and varied internship in the area of Data Science of Financial Services. Our team works on Data Analytics as well as new business models which are capable of bridging strategic directions and market challenges with financial services. Financial services range from financing vehicles, offering insurances but also creating service bundle that fit customers' needs best.

What awaits you?

- You will help us with the development and implementation of analytics models for financial services markets with a strong focus on Machine Learning.
- You will communicate insights and results to stakeholders.
- You will help us to develop applications using recent technologies such as Generative AI.

What you should bring along?

- Studies of data science, computer science, engineering, physics or mathematics with a focus on IT or a similar course of study with equivalent qualification.
- Advance coding skills in Python.
- Understanding of machine learning and first experience in implementing data science solutions.
- Experience with Cloud technologies (preferably AWS or Azure) is a plus.
- High degree of personal initiative and strong drive to innovate.
- Business fluent in English, German is a plus.

What do we offer?

- Comprehensive mentoring & onboarding.
- Personal & professional development.
- Flexible working hours.
- Digital offers & mobile working.
- Attractive remuneration.
- Apartment offers for students (subject to availability & only Munich).
