Data Manager

Description

Company Description

Arŋs is a fully **independent** group of companies specialized in managing complex **IT projects and systems** for **large organisations**, focusing on state-of-the-art software development, digital trust, cloud, data science, mobile development, machine learning and infrastructure services.

We are composed of 16 entities across 8 countries worldwide that are unified by the Arŋs Group, with more than 2500 consultants. This corporate structure enables us to respond quickly to market changes and customer requests, and to communicate and make decisions without layers of bureaucracy.

Established in 2016, the Greek entity Arŋs Developments Hellas aims to extend Arŋs Group activities dedicated to the European market providing high-quality services in Software Development, covering the entire application development lifecycle.
