

Junior Data Engineer – fresh graduate

Description

NetSuite AI group is a world class AI team embedding intelligence in the NetSuite ERP.

We enable NetSuite product teams to ship AI features faster and empower Data Scientists to uncover insights. We automate human centric processes to extract and enriched data to feed AI initiatives.

NetSuite AI Group is seeking a **Data Engineer to support operating our data pipelines and ETL**. This role is also suitable for the recent graduate with a passion for data and a desire to kickstart their career in a cutting-edge IT environment.

The ideal candidate will have good Object-Oriented programming skills and aptitude for data exploration & analytics. This person will wear many hats in this role, but much of the focus will be on running ETL processes, working with a Data Architect to build data flows, publish data catalogs, manipulate large amounts of data. Beyond technical prowess, this role will need soft skills to clearly communicate complex data dependencies and coordinate across teams.

Objectives of this role

- Work closely with the Machine Learning and Data Science teams to document data requirements for data pipelines, reporting and model development.
- Help streamline data workflows and feed data for building out ML models.
- Load data into repositories like Oracle Datawarehouse, Lakehouse etc.
- Build dashboards in Analytics and other reporting tools.
- Understand basic project management and coordinate across teams, report metrics and build training content.

Responsibilities

- Setup/populate data catalogs, data lakes and data pipeline services for AI/ML users.
- Support data exploration to discover values from datasets and find more data to catalog.
- Develop Python/Java scripts (other OOP), as well as use SQL to support ETL processes.
- Manage ETL process from disparate data sources.
- Create reporting and dashboards in Analytics platform.
- Coordinate with engineering teams and other data owners.

Required skills and qualifications

- Bachelor's degree (or equivalent experience) in computer science, information technology, engineering, or related discipline is preferred but not mandatory.
- Proficient with Object Oriented Programming and an eagerness to learn

about ML/AI.

- Proficient with using SQL in any Database.
- Understanding of Cloud platforms (Oracle Cloud Infrastructure preferred).
- Good understanding of web development, data interchange and APIs.
- Strong communication, project coordination skills and strong teamwork.

Preferred skills and qualifications

- Hands on experience with operating in Cloud – Oracle Cloud Infrastructure preferred.
- Certification in any Object-Oriented Programming, Cloud infrastructure, data tools or SQL will be an added advantage.
- Understanding of logging and observability (ELK, OpenSearch etc)
- Knowledge of data processing, data analysis or ETL process.

What we offer

- Agile environment – collaborative culture backed by a strong enterprise.
- Strong professionals around you that will help to accelerate your growth.
- Continuous career development: we actively encourage and celebrate internal promotions.
- High-impact learning culture: free access to online learning platform and regular in-house training sessions and tech talks.
- Lunch & learns: share your interests with others and learn from them.
- Diverse special interest groups that provide opportunities for networking and exchange of ideas across the company.
- Flexible PTO.

At Oracle, we don't just respect differences—we celebrate them. We believe that innovation starts with inclusion and to create the future we need people with diverse backgrounds, perspectives, and abilities. That's why we're committed to creating a workplace where all kinds of people can do their best work. It's when everyone's voice is heard and valued that we're inspired to go beyond what's been done before. <https://www.oracle.com/corporate/careers/diversity-inclusion/>

Career Level – IC2

As a world leader in cloud solutions, Oracle uses tomorrow's technology to tackle today's problems. True innovation starts with diverse perspectives and various abilities and backgrounds.

When everyone's voice is heard, we're inspired to go beyond what's been done before. It's why we're committed to expanding our inclusive workforce that promotes diverse insights and perspectives.

We've partnered with industry-leaders in almost every sector—and continue to thrive after 40+ years of change by operating with integrity.

Oracle careers open the door to global opportunities where work-life balance flourishes. We offer a highly competitive suite of employee benefits designed on the

principles of parity and consistency. We put our people first with flexible medical, life insurance and retirement options. We also encourage employees to give back to their communities through our volunteer programs.
