

AI Development Expert – SAP Signavio Process.AI

Description

Bring out your best

SAP innovations help more than four hundred thousand customers worldwide work together more efficiently and use business insight more effectively. Originally known for leadership in enterprise resource planning (ERP) software, SAP has evolved to become a market leader in end-to-end business application software and related services for database, analytics, intelligent technologies, and experience management. As a cloud company with two hundred million users and more than one hundred thousand employees worldwide, we are purpose-driven and future-focused, with a highly collaborative team ethic and commitment to personal development. Whether connecting global industries, people, or platforms, we help ensure every challenge gets the solution it deserves. At SAP, you can bring out your best.

About SAP Signavio

SAP Signavio helps our customers understand, improve, and transform all their business processes – fast and in scale. SAP Signavio was created through the merger of Signavio, the leading cloud provider for process management, with SAP's own process analytics product teams. Today, SAP Signavio is one of the fastest growing cloud units within SAP and represents SAP's spearhead for all things process.

Given its strategic importance and market momentum, SAP Signavio underwent a significant hypergrowth phase throughout 2021-2022. In 2023 the Product and Engineering side of SAP Signavio has been moved under the purview of the Office of the CEO, which continues to underline the strategic importance of SAP Signavio to the whole of SAP.

What you'll do

This is the age of AI – We are seeking an exceptional developer to join our dynamic team at SAP Signavio, where we are dedicated to creating cutting-edge products in the field of Artificial Intelligence for process management and process mining. As an AI Developer, you will be responsible for conceptualizing ideas, conducting research on emerging topics, and implementing efficient code based on SAP product standards.

What you bring

- Having an entrepreneurial mindset, thinking creatively, and considering the entire process from start to finish will enable you to accomplish ambitious objectives in a highly innovative and fast-paced product setting.
- Bachelor's or Master's degree in computer science, artificial intelligence (AI), data science, mathematics, physics, or a related field
- 6+ years of experience in software development
- Knowledge and experience in one or more of the following areas is a plus:

- Expertise in developing cloud applications and services
- Fluent in both spoken and written English
- A collaborative team player, enthusiastic, proactive, and fully passionate about coding

Meet your team

We are a passionate team of AI enthusiasts fully dedicated to developing and utilizing cutting-edge AI tools and algorithms to push the boundaries of what is possible now. Our mission is to create advanced AI services for SAP Signavio that revolutionize process modeling, process mining, and process simulation lifting existing solutions to the next level.

*Do I need to meet all the requirements to apply? * Studies by several different sources have shown that, on average, men will apply for a job if they meet 60% of the application requirements. In contrast, women/non-binary people will seek to match a much higher percentage of the requirements before applying.

We encourage everyone to apply and give us a chance to evaluate your skills and experience. We are all learning on the job, and although the listing above has been carefully compiled, we are also open-minded and interested to hear about the value you can bring to the role and Signavio.

How can I demonstrate that I have particular needs in the application process?

For people living with disabilities, chronic illnesses, or neurodiversity, adjustments and support can make a decisive difference in the application process. If you need any specific accommodations (tools, time, etc.) and feel comfortable disclosing this, please let us know

We win with inclusion

SAP's culture of inclusion, focus on health and well-being, and flexible working models help ensure that everyone – regardless of background – feels included and can run at their best. At SAP, we believe we are made stronger by the unique capabilities and qualities that each person brings to our company, and we invest in our employees to inspire confidence and help everyone realize their full potential. We ultimately believe in unleashing all talent and creating a better and more equitable world.

SAP is proud to be an equal opportunity workplace and is an affirmative action employer. We are committed to the values of Equal Employment Opportunity and provide accessibility accommodations to applicants with physical and/or mental disabilities. If you are interested in applying for employment with SAP and are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team: Careers@sap.com

For SAP employees: Only permanent roles are eligible for the SAP Employee Referral Program, according to the eligibility rules set in the [SAP Referral Policy](#). Specific conditions may apply for roles in Vocational Training.

EOE AA M/F/Vet/Disability:

Qualified applicants will receive consideration for employment without regard to their age, race, religion, national origin, ethnicity, age, gender (including pregnancy, childbirth, et al), sexual orientation, gender identity or expression, protected veteran status, or disability.

Successful candidates might be required to undergo a background verification with an external vendor.

Requisition ID: 395050 | Work Area: Software-Design and Development | Expected Travel: 0 – 10% | Career Status: Professional | Employment Type: Regular Full Time | Additional Locations: #LI-Hybrid.

How the process will look like

Your teammates will gather all requirements within our organization. Then, once priority has been discussed, you will decide as a team on the best solutions and architecture to meet these needs. In continuous increments and continuous communication between the team and stakeholders, you're part of making data play an even more important (and understood) part withing Brand New Day.
